

SLA Guidelines On Website

All pipelines, cables, and other types of utilities must be laid within the road reserve or drainage reserve.

All proposals are to be submitted with a plan complying with the following plan requirements:

- a) The proposal is to be drawn to scale and drawn accurately on a cadastral plan of a suitable scale. The cadastral plan can be purchased from 55 Newton Road, #12-01 Revenue House Singapore 307987 and the plan can also be purchased online at www.inlis.gov.sg.
- b) The Mukim or Town Sub-division and Lot numbers of the affected lands are to be clearly shown in the plan. The road names and the North direction are to be indicated.
- c) The title of the plan must give a clear description of the proposal.
- d) The whole proposed line is to be clearly edged in red and the road reserve lines (as shown in LTA's Road Interpretation Plan) are to be clearly indicated in a separate colour.
